DR. SIAN "LEO" PROCTOR
Historic Spacecraft Pilot / Cosmic Artist

# Sian "Leo" Proctor, Ph.D.

## "Greetings, Space and Art Enthusiasts!"

I'm Dr. Sian "Leo" Proctor, an artist, poet, and astronaut with a passion for "Afrofuturism," a cultural movement incorporating science fiction, technology, and futuristic elements into literature, music, and the visual arts to center Black history and culture. Here's a glimpse into my cosmic journey:

- **First Black Commercial Astronaut:** I was proud to serve as the pilot on Inspiration4, SpaceX's first all-civilian spaceflight in 2021.
- **First Female Commercial Spaceship Pilot:** I love breaking down barriers, and being a role model to girls who dream of experiencing the final frontier.
- **Geoscience Professor:** I bring my knowledge of Earth sciences to space exploration.
- **Space Chef:** I whip up meals in the unique environment of space.
- **Ice Hockey Player:** I enjoy hitting the ice when I'm not exploring the stars.

## What Excites Me About Space and STEM:

"I love using my geoscience knowledge to observe Earth from space. My STEM background helps me recognize unique concepts like experiencing Earthlight while in space."

"As we push humanity to the moon, Mars, and beyond, it is important that we strive for a just, equitable, diverse, and inclusive space (J.E.D.I. Space) so that we can truly create space for all!"

## Sian's Faves in Space and STEM:

**THE NASA APP**
Stay updated with all things NASA.

**NASA VISUALIZATION EXPLORER APP**
Explore articles on the latest research and discoveries.

**PLANETS APP**
Identify objects in the night sky.

**EARTH NOW APP**
View real-time satellite information about Earth.

**SPACE2INSPIRE.ORG**
Learn more about my space journey! Explore my afrofuturistic art and out-of-this-world creations.

## Join me in blending art and science as we explore the cosmos!
